

variable name	valueType	unit	label	description
Qx_BC	text		Questionnaire BARCODE	unique code (8 characters long, starting with "BC" followed by 6 random digits) identifying questionnaire
ADM_STUDY_ID	text		Regional cohort ID	Identification number of the regional cohort.
ADM_STUDY_DATASET	text		Regional cohort dataset name	Name of the regional cohort dataset.
DIS_ENDO_EVER	integer		Occurrence of endocrine and metabolic condition	Occurrence of endocrine and metabolic condition at any point during the life of the participant.
DIS_ENDO_HB_CHOL_EVER	integer		Occurrence of high blood cholesterol	Occurrence of high blood cholesterol at any point during the life of the participant.
DIS_ENDO_HB_CHOL_AGE	integer	years	High blood cholesterol onset (Age)	Age of the participant at high blood cholesterol diagnosis.
DIS_ENDO_SUGAR_EVER	integer		Occurrence of high blood or urine sugar	Occurrence of high blood sugar (blood glucose) or urine sugar at any point during the life of the participant.
DIS_ENDO_SUGAR_AGE	integer	years	High blood or urine sugar onset (Age)	Age of the participant at high blood sugar (blood glucose) or urine sugar diagnosis.
DIS_ENDO_TD_EVER	integer		Occurrence of thyroid disease	Occurrence of thyroid disease at any point during the life of the participant.
DIS_ENDO_TD_AGE	integer	years	Thyroid disease onset (Age)	Age of the participant at thyroid disease diagnosis.
DIS_CARDIO_PREM_HD_MALE_EVER	integer		Family history of premature heart disease in male relatives	Occurrence of premature heart disease before 50 years of age in participant's male relatives (father, brother(s), son(s)).
DIS_CARDIO_PREM_HD_FEMALE_EVER	integer		Family history of premature heart disease in female relatives	Occurrence of premature heart disease before 60 years of age in participant's female relatives (mother, sister(s), daughter(s)).
DIS_CARDIO_EVER	integer		Occurrence of heart and circulatory condition	Occurrence of heart and circulatory condition at any point during the life of the participant.
DIS_CARDIO_DVT_EVER	integer		Occurrence of blood clot in leg (DVT)	Occurrence of blood clot in leg at any point during the life of the participant.
DIS_CARDIO_DVT_AGE	integer	years	Blood clot in leg (DVT) onset (Age)	Age of the participant at blood clot in leg (DVT) diagnosis.
DIS_CARDIO_PE_EVER	integer		Occurrence of blood clot in lung (pulmonary embolism)	Occurrence of blood clot in lung at any point during the life of the participant.
DIS_CARDIO_PE_AGE	integer	years	Blood clot in lung (pulmonary embolism) onset (Age)	Age of the participant at blood clot in lung (pulmonary embolism) diagnosis.
DIS_CARDIO_ANGINA_EVER	integer		Occurrence of angina	Occurrence of angina at any point during the life of the participant.
DIS_CARDIO_ANGINA_AGE	integer	years	Angina onset (Age)	Age of the participant at angina diagnosis.
DIS_CARDIO_TIA_EVER	integer		Occurrence of warning stroke or TIA	Occurrence of warning stroke or TIA at any point during the life of the participant.

variable name	valueType	unit	label	description
DIS_CARDIO_TIA_AGE	integer	years	Warning stroke or TIA onset (Age)	Age of the participant at warning stroke or TIA diagnosis.
DIS_CARDIO_HF_EVER	integer		Occurrence of congestive heart failure	Occurrence of congestive heart failure at any point during the life of the participant.
DIS_CARDIO_HF_AGE	integer	years	Congestive heart failure onset (Age)	Age of the participant at congestive heart failure diagnosis.
DIS_CARDIO_PERI_EVER	integer		Occurrence of peripheral arterial disease	Occurrence of peripheral arterial disease at any point during the life of the participant.
DIS_CARDIO_PERI_AGE	integer	years	Peripheral arterial disease onset (Age)	Age of the participant at peripheral arterial disease diagnosis.
DIS_CARDIO_ATRIAL_EVER	integer		Occurrence of atrial fibrillation	Occurrence of atrial fibrillation at any point during the life of the participant.
DIS_CARDIO_ATRIAL_AGE	integer	years	Atrial fibrillation onset (Age)	Age of the participant at atrial fibrillation diagnosis.
DIS_CARDIO_ARRH_EVER	integer		Occurrence of arrhythmia or irregular rhythm	Occurrence of arrhythmia or irregular rhythm at any point during the life of the participant.
DIS_CARDIO_ARRH_AGE	integer	years	Arrhythmia or irregular rhythm onset (Age)	Age of the participant at arrhythmia or irregular rhythm diagnosis.
DIS_RESP_EVER	integer		Occurrence of respiratory condition	Occurrence of respiratory condition at any point during the life of the participant.
DIS_RESP_HAYFEVER_EVER	integer		Occurrence of allergic rhinitis/hayfever	Occurrence of allergic rhinitis/hayfever at any point during the life of the participant.
DIS_RESP_HAYFEVER_AGE	integer	years	Allergic rhinitis/hayfever onset (Age)	Age of the participant at allergic rhinitis/hayfever diagnosis.
DIS_GASTRO_EVER	integer		Occurrence of gastrointestinal condition	Occurrence of gastrointestinal condition at any point during the life of the participant.
DIS_GASTRO_GERD_EVER	integer		Occurrence of persistent acid reflux (GERD)	Occurrence of persistent acid reflux (GERD) at any point during the life of the participant.
DIS_GASTRO_GERD_AGE	integer	years	Persistent acid reflux (GERD) onset (Age)	Age of the participant at persistent acid reflux (GERD) diagnosis.
DIS_GASTRO_H_PYLORI_EVER	integer		Occurrence of H. Pylori infection	Occurrence of H. Pylori infection at any point during the life of the participant.
DIS_GASTRO_H_PYLORI_AGE	integer	years	H. Pylori infection onset (Age)	Age of the participant at Helicobacter Pylori infection diagnosis.
DIS_GASTRO_BARRETTS_EVER	integer		Occurrence of Barrett's esophagus	Occurrence of Barrett's esophagus at any point during the life of the participant.
DIS_LIVER_GALLSTONES_EVER	integer		Occurrence of gallstones or cholecystitis	Occurrence of gallstones or cholecystitis at any point during the life of the participant.
DIS_LIVER_GALLSTONES_AGE	integer	years	Gallstones or cholecystitis onset (Age)	Age of the participant at gallstones or cholecystitis diagnosis.
DIS_RD_EVER	integer		Occurrence of renal disease/kidney failure	Occurrence of renal disease and kidney failure at any point during the life of the participant.

variable name	valueType	unit	label	description
DIS_NEURO_EVER	integer		Occurrence of neurological condition	Occurrence of neurological condition at any point during the life of the participant.
DIS_NEURO_PARKINSON_EVER	integer		Occurrence of Parkinson's disease	Occurrence of Parkinson's disease at any point during the life of the participant.
DIS_NEURO_PARKINSON_AGE	integer	years	Parkinson's disease onset (Age)	Age of the participant at Parkinson's disease diagnosis.
DIS_NEURO_MIGRAINE_EVER	integer		Occurrence of migraines	Occurrence of migraines at any point during the life of the participant.
DIS_NEURO_MIGRAINE_AGE	integer	years	Migraines onset (Age)	Age of the participant at migraines diagnosis.
DIS_BONE_EVER	integer		Occurrence of bone and joints condition	Occurrence of bone and joints condition at any point during the life of the participant.
DIS_BONE_OSTEOPENIA_EVER	integer		Occurrence of osteopenia	Occurrence of osteopenia at any point during the life of the participant.
DIS_BONE_OSTEOPENIA_AGE	integer	years	Osteopenia onset (Age)	Age of the participant at osteopenia diagnosis.
DIS_INFEC_EVER	integer		Occurrence of infectious disease	Occurrence of infectious disease at any point during the life of the participant.
DIS_INFEC_TB_EVER	integer		Occurrence of tuberculosis	Occurrence of tuberculosis at any point during the life of the participant.
DIS_INFEC_TB_AGE	integer	years	Tuberculosis onset (Age)	Age of the participant at tuberculosis diagnosis.
DIS_INFEC_STI_EVER	integer		Occurrence of sexually transmitted infections	Occurrence of sexually transmitted infections at any point during the life of the participant.
DIS_INFEC_STI_AGE	integer	years	Sexually transmitted infections onset (Age)	Age of the participant at sexually transmitted infections.
DIS_EYE_EVER	integer		Occurrence of eye or vision condition	Occurrence of eye or vision condition at any point during the life of the participant.
DIS_EYE_MACULAR_EVER	integer		Occurrence of macular degeneration	Occurrence of macular degeneration at any point during the life of the participant.
DIS_EYE_MACULAR_AGE	integer	years	Macular degeneration onset (Age)	Age of the participant at macular degeneration diagnosis.
DIS_EYE_GLAUCOMA_EVER	integer		Occurrence of glaucoma	Occurrence of glaucoma at any point during the life of the participant.
DIS_EYE_GLAUCOMA_AGE	integer	years	Glaucoma onset (Age)	Age of the participant at glaucoma diagnosis.
DIS_EYE_CATARACTS_EVER	integer		Occurrence of cataracts	Occurrence of cataracts at any point during the life of the participant.
DIS_EYE_CATARACTS_AGE	integer	years	Cataracts onset (Age)	Age of the participant at cataracts diagnosis.

variable name	valueType	unit	label	description
DIS_CARDIO_PREM_HD_FAM_EVER	integer		Family history of premature heart disease	Occurrence of premature heart disease at any point during the life of the participant's relatives (father, mother, siblings and children).
DIS_NEURO_PARKINSON_FAM_EVER	integer		Family history of Parkinson's disease	Occurrence of Parkinson's disease
DIS_NEURO_DEMENT_AD_FAM_EVER	integer		Family history of dementia or Alzheimer's disease	
DIS_NEURO_PARKINSON_F_EVER	integer		Lifetime occurrence of Parkinson's disease in father	Occurrence of Parkinson's disease at any point during the life of the participant's biological father.
DIS_NEURO_DEMENT_AD_F_EVER	integer		Lifetime occurrence of dementia or Alzheimer's disease in father	Occurrence of dementia or Alzheimer's disease at any point during the life of the participant's biological father.
DIS_NEURO_PARKINSON_M_EVER	integer		Lifetime occurrence of Parkinson's disease in mother	Occurrence of Parkinson's disease at any point during the life of the participant's biological mother.
DIS_NEURO_DEMENT_AD_M_EVER	integer		Lifetime occurrence of dementia or Alzheimer's disease in mother	Occurrence of dementia or Alzheimer's disease at any point during the life of the participant's biological mother.
DIS_NEURO_PARKINSON_SIB_EVER	integer		Lifetime occurrence of Parkinson's disease in siblings	Occurrence of Parkinson's disease at any point during the life of the participant's biological siblings (one or two common parents).
DIS_NEURO_PARKINSON_SIB_NUM	integer	siblings	Number of siblings with Parkinson's disease	Total number of participant's biological siblings (one or two common parents) with Parkinson's disease.
DIS_NEURO_DEMENT_AD_SIB_EVER	integer		Lifetime occurrence of dementia or Alzheimer's disease in siblings	Occurrence of dementia or Alzheimer's disease at any point during the life of the participant's biological siblings (one or two common parents).
DIS_NEURO_DEMENT_AD_SIB_NUM	integer	siblings	Number of siblings with dementia or Alzheimer's disease	Total number of participant's biological siblings (one or two common parents) with dementia or Alzheimer's disease.
DIS_NEURO_PARKINSON_CHILD_EVER	integer		Lifetime occurrence of Parkinson's disease in children	Occurrence of Parkinson's disease at any point during the life of the participant's biological children.
DIS_NEURO_PARKINSON_CHILD_NUM	integer	children	Number of children with Parkinson's disease	Total number of participant's biological children with Parkinson's disease.
DIS_NEURO_DEMENT_AD_CHILD_EVER	integer		Lifetime occurrence of dementia or Alzheimer's disease in children	Occurrence of dementia or Alzheimer's disease at any point during the life of the participant's biological children.
DIS_NEURO_DEMENT_AD_CHILD_NUM	integer	children	Number of children with dementia or Alzheimer's disease	Total number of participant's biological children with dementia or Alzheimer's disease.
